REFERENCE

ME/EA/GA 149

DATE

30-set-2021

SUBJECT

Non Incident / Non accident Statement

To Whom It May Concern:

Engine serial number 779481, details of which are specified below, has been operated by **TAP Air Portugal** during the period from March 24th, 1999 to September 9th, 2021.

Configuration details from: March 24th, 1999

Description	PN	SN	TSN	CSN
Engine	CFM56-5B5P	779481	0:00	0

Configuration details to: September 30th, 2021

Description	PN	SN	TSN	CSN
Engine	CFM56-5B5P	779481	73223:55	36354

I hereby certify that, to the best of my knowledge, during the period stated above:

1. Neither the Engine, nor any part installed have been

- a. damaged during, or identified as the root cause of, a reportable incident or accident as defined by Annex 13 to the Chicago Convention, or
- b. subjected to severe stress or heat (such as in a major engine failure, accident or fire) or has been submersed in salt water,

2. No part has been installed on the engine which was obtained from a military source or was previously fitted to a state aircraft as deemed by Article 3 of the Chicago Convention.

Model: CFM56-5B5P

ESN: 779481

TSN: 73223:55

CSN: 36354

Hours and cycle correction

To whom it may concern:

A discrepancy was verified in the TSN and CSN of the engine as of its removal from CS-TTK (MSN 1034) on 7th of July 2009.

As such, a correction was made by adding 3 cycles and 4:10 hours to the engine.

As of 8th October 2010:

	Before correction	After correction
Engine TSN	32038:29	32042:39
Engine CSN	19238	19241

All LLP sheets and shop release certificates from subsequent shop visits were updated.

All other shop documentation thus presents a discrepancy in what regards the TSN and CSN of the engine at said SVs. Hours and cycles of the shop release certificate are to be considered as correct when accounting for hour and cycles of this engine at concerned event.

Annexes:

1. EASA F1, No:263453 (Correction of No: 268949, 20-Aug-2009 SV)
2. EASA F1, No:263455 (Correction of No: 269145, 03-May-2010 SV)
3. EASA F1, No:263456 (Correction of No: 499615, 03-Mar-2016 SV)
4. EASA F1, No:295878 (Correction of No: 608782, 04-Mar-2021)
5. LLP sheet, dated 20-Aug-2009 (before SV)
6. LLP sheet, dated 20-Aug-2009 (after SV)
7. LLP sheet, dated 12-Feb-2010 (before SV)
8. LLP sheet, dated 30-Apr-2010 (after SV)

USER/INSTALLER RESPONSIBILITIES This certificate does not automatically constitute authority to install the item(s). Were the user/installer performs work in accordance with regulations of an airworthiness authority different than the airworthiness authority specified in block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts items from the airworthiness authority specified in block 1. Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown. RESPONSABILIDADES DO UTILIZADOR/INSTALADOR O presente certificado não constitui uma autorização automática de instalação do(s) item(s). Se o utilizador/instalador atuar com base na regulamentação de uma autoridade de aeronavegabilidade diferente da autoridade de aeronavegabilidade indicada no campo 1, é essencial que o utilizador/instalador assegure que a respetiva autoridade de aeronavegabilidade aceita os itens da autoridade de aeronavegabilidade indicada no campo 1. As declarações constantes dos campos 13a e 14a não constituem uma certificação de instalação. Em todo o caso, os registos de manutenção da aeronave deverão ter averbado um certificado de instalação emitido pelo utilizador/instalador, com base na regulamentação nacional, antes de a aeronave ser colocada em serviço.
