## PRODUCT TESTING:

**BS EN 14476:2013+A2 2019.** antiviral to combat **all enveloped viruses** including COVID19 and variants killing 99.9% within 60 seconds. Tests performed by MSL Solutions, Walmersley, UK. Report number: Q004509

Modified kill study as Antibacterial with 99.9% efficiency against: E-Coli, Listeria, Salmonella and Staphylococcus within 60 seconds. Tests performed by KAPPA Labs Miami USA, Report number: 330320

Our manufacturer will not purchase from any supplier that cannot certify that they do not conduct animal testing, plus does not conduct any type of animal testing of its own.

**F483-09** (Immersion corrosion test for maintenance chemicals)  
**F484-08** (Stress cracking on acrylic plastics)  
**F485-08** (Effects on unpainted surfaces)  
**F2109-01** (Colour change caused by cleaning fluids on hard surfaces cabin interior)

EASA/FAA approved engineering solution to ensure compliance to civil aviation requirements controlled and authorised by 365 Aviation, Letchworth UK. Compliance document number SB-1232-25-01 and SB-1236-25-01

Flammability testing for conformance to:  
CS/FAR 25.853 Appendix F Part 1 (a) (1) (ii)  
CS/FAR 25.853 Appendix F Part 1 (a) (1) (i)  
CS/FAR 25.853 Appendix F Part 1 (a) (1) (iv)  
CS/FAR 25.853 Appendix F Part II

Boeing test specification **BSS7434** for chemical compatibility of cleaning products on interior parts/materials on commercial transport aircraft.

Airbus test specification **AMS 1550B** for water based cleaners for aircraft interior hard surfaces and materials. **Airbus AMS 1452 Rev C**, for use of disinfectants on aircraft interior surfaces.

Surfactants utilised in the **MX14** formulation conform to **OECD301F** for **biodegradability**. Packing conforms to **EN 13432** for **Home Compostability**. Dispensers are refillable and/or **100% PCR recycled plastic** or **100% plastic free**.

Published SDS sheets fully comply with REACH requirements with full source documentation for any REACH listed ingredients to source.
